1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller, within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under 2 years of age shall not be served by a heavy, or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. A Story From

OSWALD SHORTHORNS

We again would like to take this opportunity to invite you to our annual production sale. Also, we want to take a little of our time to introduce you to our family operation that has been continuous since 1882. Orlyn's grandfather, John L. Jones built the original Shorthorn herd in Wisconsin back well before the turn of the century. Our records show transactions in 1882. Orlyn's father, Otto H. Oswald, laid the foundation for the Oswald Shorthorns, near Broadview in 1919, with cattle from the Jones herd.

THE OSWALD FAMILY—1968

Malyn Marilyn Mavis Orlyn Roxy

From its founding until 1947, the herd grew steadily in numbers and Orlyn and his family moved to an irrigated ranch near Joliet where he maintains the headquarters for the Oswald Shorthorns. He maintains the herd at a couple hundred females and his satisfied Shorthorn customers range as far west as Washington and to as far east as Virginia. He is still convinced that one of the reasons for this is his continuance of one of his father's policies—Neither of them ever "spared the horses" when it came to owning just the right bull for the herd.

We have done performance testing and exhibiting at our strongest local shows with satisfying results. In 1963, we took three senior calves to our state sale and won Grand and Reserve Champions and Champion Get of Sire. In 1964, we had Grand Champion Female. All four were by the Denver Champion, W.L. Consort. In 1965, we entered four bulls in the Midland Testing Station, all from different sires. They were all in the top end of the 180 bulls entered, gaining well over three pounds per day, which proves the uniformity. In 1966 at the special Shorthorn Feeder Calf Sale in Billings in October, the top selling pens of steer calves and heifer calves were sired by one of our bulls and at this same sale, the top selling pen of Angus-Shorthorn cross bred calves came from a herd using Oswald Shorthorn bulls. A pen of cross bred Shorthorn-Hereford calves topped the sale in December, sired by Oswald bulls. The top 4-H calf in the 1967 Feeder Calf Sale was also sired by an Oswald bull. This, I believe proves the uniformity of the herd, together with their bred-in gainability, and ability to breed on.

The past two years, we have been putting our bull calves on IPR tests. They are fed a light grain ration. Maximum 4 to 8 pounds of grain. We have gains of over 3 pounds on this ration. We start with 4 pounds and work up to 8 pounds mixed with alfalfa grass hay to control the grain intake.

This year being an excellent grass year in this area, we have weaned the heaviest set of calves in the area with no creep.

A brother of our herd sire sired the 1965 Reserve Champion Steer of the Chicago International. This was over all breeds. We have sold steers that have won championships at the Spokane Junior Steer Show, the Wyoming State Fair and several smaller shows. The Spokane Show is one of the largest in the Northwest.

We feel that conformation, with gainability, is a must. We have always tried to buy herd sires with a good record of performance. To illustrate, in early 1964, we bought a spring calf with a great show record. Later, a group of the most competent judges voted him the 1964 All-American Spring Bull Calf. He was one of eight All-American bulls in the United States and Canada. His service and get will be one of the features of this sale.

In 1967, Oswald Shorthorns added two K.C. bulls to our battery of herd bulls. Both by Glamis Benefactor. One bull was the top of K.C.'s production sale. The other, a calf, is a full brother to K.C. Miss Ramsden who has a very enviable show record. We hope that these bulls will carry on the enviable record the older sires are making.

In 1941, Orlyn married Mavis Popelka of Billings, and they have three children, two daughters, Marilyn and Roxy, and a son, Malyn. Mavis' brother Richard, who started his herd with Oswald foundation stock in 1959, is a guest consignor of this sale.

We, the family, cordially invite you to be our guests, Saturday, March 9, 1968 to our fourth production sale. Free lunch will be served at 11:30 a.m. and the sale will start at 12:30. We urge you to come and bring your neighbors.

Big Sky Shorthorn Lassie—ROXY OSWALD

Hello! I am the Montana-Northern Wyoming Shorthorn Lassie Queen. I travelled many miles over Montana and Wyoming giving out promotional material and awarding ribbons and trophies, since last June.

In November, I went to Chicago to the International Livestock Exposition. I saw some "mighty fine" looking cattle and met many wonderful people.

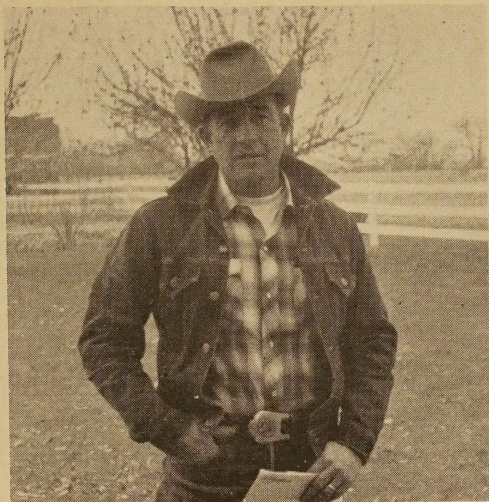

While in Chicago, I met the other 19 Shorthorn Queens. We marched by two's each place we went. It was a very impressive way to advertise our Shorthorn breed. All of us were asked by many different people, if we were young ladies from Scotland or just what it was that we represented. We were always very proud to say that we represented the "Great" breed of Shorthorn cattle.

This year the Lassies sold leather goods to finance my trip to Chicago. We still have leather belt buckles, bolo ties, pins, dogger ties, key chain coin purses and earrings for sale if you are interested.

I would like to cordially invite you to our Production Sale! I would be very thrilled to be able to meet you and tell you of my Shorthorn travels.

ROXY OSWALD

Big Sky Lassie Queen

RICHARD POPELKA

Orlyn Oswald's brother-in-law and guest consignor.

I, too, would like to take this opportunity to invite you to this year's production sale, in which I am a guest consignor.

Our first Shorthorn was in 1958, when our son bought a heifer from Orlyn Oswald to take in 4-H. My children showed this heifer in several fairs, three years in a row and it was chosen as "The Model of An Ideal Cow," several times during the three consecutive years.

I have built my Shorthorn herd up until I now have 50 Registered Shorthorn cows and 100 commercial cows.

I have been a guest consignor in Orlyn's production sale each year. Most of my cattle stem from Oswald breeding. We live in Billings but keep our cattle on a ranch 8 miles north of Red Lodge, Montana.

Again, I would like to express my hope that you will be able to attend this year's Oswald Production Sale—March 9.

NEWS TYPE 746—This heifer sells open and would make a good 4-H project or replacement cow.

The following 20 lots represent heifers consigned by Popelka, are bred by the Holecek Brothers that represented a lifetime breeding program for them and they have sold many sale toppers in the State Sale of breeding animals and feeder calves, such as the steer pictured above. This would be a rare opportunity to get foundation females bred alike. Bred to current popular sires.
